

AYO Mentoring Life Skills Program

The AYO Mentor Program works to offer youth an environment where life skills can be intentionally taught. The greatest environment that AYO can offer is a mentoring relationship with a caring adult. To further support the match relationship we offer the match intentional environments and education to strengthen the relationship and life skills learning.

AYO asks you to talk about a life skills conversation monthly with your youth. The Life Skills Conversation topic will offer you an engaging experience to strengthen your match relationship and spark learning about a specific life topic. AYO expects that you complete a Life Skills Conversation with your youth once every month throughout the year and that each match participate in two volunteer activities each year.

AYO's free Homework Help and Tutoring Program offers youth a weekly pro social environment to receive academic support. Ask you Mentor Specialists about enrolling your mentee.
